

1. Title

Library Book Issue Management using Zoho Creator

2. Objective

To design and develop a **Library Book Issue Request Form** using Zoho Creator that demonstrates the usage of all **13 Basic Fields** available in the Form Builder.

The application collects member details, contact information, book requirements, preferred collection schedule, and acknowledgement of library rules in a structured digital format.

3. Problem Statement

The college library currently receives book issue requests through physical registers and verbal communication. This makes it difficult to maintain records, verify book availability, track requests, and organize collection schedules.

To overcome this problem, a **low-code Library Book Issue Management application** is developed using Zoho Creator. The application allows students, faculty, and staff to submit book issue requests through an online form.

4. Application Details

Item	Details
Application Name	Library Book Issue Management
Form Name	Book_Issue_Request_Form
Report Name	Book_Issue_Request_Report
Platform	Zoho Creator
Primary Users	Students, Faculty and Staff
Purpose	Digital submission and management of library book requests

The screenshot displays the Zoho Creator app builder interface for a form titled 'Book_Issue_Request_Form'. The interface is divided into three main sections: a left sidebar with field type icons, a central form canvas, and a right-hand 'Field Properties' panel.

Left Sidebar (Basic Fields): Contains icons for Name, Email, Address, Phone, Single Line, Multi Line, Number, Date, Time, Drop Down, Radio, and Multi Select. The 'Advanced Fields' section is currently collapsed.

Central Form Canvas: Shows the form layout with the following fields:

- Member_Name** (Text field, highlighted with a blue border)
- Email_Address** (Text field)
- Hostel_Residential_Address** (Text field)
- Contact_Number** (Text field)
- Register_Roll_Number** (Text field)
- Purpose_Of_Borrowing** (Text field)
- Number_Of_Copies** (Text field)
- Preferred_Issue_Date** (Date field)
- Preferred_Collection_Time** (Time field)
- Book_Category** (Drop Down field)
- Member_Type** (Radio field)
- Subject_Areas_Of_Interest** (Multi Select field)
- Agree_To_Library_Rules** (Checkbox field)

Field Properties Panel (Right):

- Field name:** Member_Name
- Field link name:** Member_Name
- Validation:** ☒ Mandatory
- Display Fields:**
 - ☐ Prefix
 - ☐ First Name
 - ☒ Last Name
 - ☐ Suffix
- Data Privacy:** ☒ Contains personal data(?)
- Data Security:** Data encryption is not supported.
- Visibility:** Show field to: Everyone
- Appearance:** (Options for styling)

At the bottom of the interface, a status bar indicates 'Trial expires in 15 days' and provides links for 'Upgrade', 'Get started faster!', and 'Help'.

5. Basic Fields Used

The form uses all **13 Basic Field types**.

No.	Basic Field	Field Name	Purpose
1	Name	Member_Name	Captures member's first and last name
2	Email	Email_Address	Captures email for communication
3	Address	Hostel_Residential_Address	Stores residential/hostel address
4	Phone	Contact_Number	Captures member contact number
5	Single Line	Register_Roll_Number	Stores register/roll/employee number
6	Multi Line	Purpose_Of_Borrowing	Captures purpose of borrowing
7	Number	Number_Of_Copies	Specifies number of copies requested
8	Date	Preferred_Issue_Date	Stores preferred issue date
9	Time	Preferred_Collection_Time	Stores preferred collection time
10	Drop Down	Book_Category	Allows selection of book category
11	Radio	Member_Type	Selects Student/Faculty/Staff

No.	Basic Field	Field Name	Purpose
12	Multi Select	Subject_Areas_Of_Interest	Allows multiple subject selections
13	Checkbox	Agree_To_Library_Rules	Captures acknowledgement of library rules

6. Form Structure

The form is organized into four logical sections.

Section A – Member Details

- Member Name
- Register/Roll Number
- Member Type

Section B – Contact Details

- Email Address
- Contact Number
- Hostel/Residential Address

Section C – Book Request Details

- Book Category
- Subject Areas of Interest
- Number of Copies
- Purpose of Borrowing

Section D – Scheduling & Acknowledgement

- Preferred Issue Date
- Preferred Collection Time
- Agree to Library Rules

7. Validation Rules

The following validations were configured in the form:

1. **Member Name** is mandatory.
2. **Register/Roll Number** is mandatory.
3. **Member Type** is mandatory.
4. **Book Category** is mandatory.
5. **Email Address** accepts a valid email format.
6. **Contact Number** is configured for phone number entry.
7. **Number of Copies** is restricted between **1 and 5**.
8. **Preferred Issue Date** does not allow past dates.
9. **Agree to Library Rules** is mandatory.
10. The form cannot be submitted without accepting the library rules.

8. Sample Data

Record 1

Field	Value
Member Name	Karthik Subramaniam
Register Number	22ADR045
Member Type	Student
Email	karthik.s@example.com
Contact Number	+91 97890 55667

Field	Value
Book Category	Computer Science & Engineering
Subject Areas	AI, Data Science, Machine Learning
Number of Copies	2
Purpose	Required as reference material for final-year capstone project
Preferred Date	Future Date
Collection Time	2:00 PM
Library Rules	Agreed
Book Category	Mathematics
Subject Areas	Data Science

9. Report View

A report named **Book_Issue_Request_Report** was created to display all submitted book issue requests.

The report allows library staff to:

- View submitted requests.
- Verify member details.
- Check requested book category.
- View number of copies required.
- Check preferred issue date.
- Check collection time.
- Filter and process requests.

12. Result

The **Library Book Issue Management** application was successfully developed using Zoho Creator. The form successfully demonstrates all **13 Basic Field types** and includes appropriate mandatory-field, format, range, date, and acknowledgement validations.

The submitted requests are stored in the **Book_Issue_Request_Report**, enabling library staff to digitally manage and process book issue requests.

13. Conclusion

Thus, a functional **Library Book Issue Request Form** was successfully created using Zoho Creator. The application provides a structured method for collecting member and book request information while reducing manual record keeping. The use of different Basic Fields and validation rules makes the form suitable for practical library request management.
